APPRENTICESHIPS

We offer:

- Pre-apprenticeship training
- Apprenticeships
- CSCS tests
- A BTEC Level 1 award in Health and Safety
- CV workshops
- Interview skills training
- Bespoke construction skills training linked to job opportunities
- Jobs and work placements
- Graduate and undergraduate positions.

About King's Cross Construction Skills Centre (KXCSC)

KXCSC is Camden's flagship skills centre. We offer training, apprenticeships and employment opportunities to people looking to start a career in construction, or those interested in furthering their career in the industry.

Our team is here to help, with everything you need for a smooth and effective transition into employment, including specialists with direct access to construction related jobs both locally and in the surrounding area.

How can KXCSC help you?

With a range of construction projects in Camden and Islington, it's never been a better time to take up an apprenticeship. We can help you kick-start your career with:

- Advice and guidance to help choose a course that matches your interests
- Pre-job training including access to employability skills
- On the job training leading to nationally recognised qualifications
- Pre and post-employment support, including recruitment advice to help find the right job to match your skills
- Ongoing support for you and your employer to ensure long-term employment.

What can you expect to achieve?

Successful candidates can look forward to a rich and rewarding career in construction. The skills you learn with KXCSC can open doors to a variety of industries worldwide, or you could even set up your own business and work for yourself.

Once qualified you could earn between £30,000 to £50,000 per year. Candidates who decide to move on to become a supervisor or manager could be looking to earn £35,000 to £75,000 a year.

If you are keen to succeed, we can help you.

Apprenticeship opportunities

KXCSC is providing a new construction curriculum in partnership with the College of North West London.

The training programme is aimed at all ages, including:

- Courses for school pupils aged 14 to 16
- Apprenticeships for school leavers aged 16 to 18
- Adult apprenticeships for ages 19+

Training is available to both Camden and Islington residents.

Adult apprenticeships are under 16 hours per week and will not affect benefit payments.

Courses

How is the course taught?

You will be taught practical sessions in fully equipped workshops. Theory session will be delivered in the classroom using a range of teaching tools and techniques

How will I be assessed?

You will be assessed on an ongoing basis through assignments, online tests and practical tasks

Level 2 Diploma in Carpentry and Joinery

These courses are open to all Camden and Islington residents aged 16+ with no upper age limit. Courses are both full and part-time depending on your age.

These qualifications are the ideal introduction to the construction industry and cover practical skills and knowledge, including:

- Health, safety and welfare in construction
- Principles of building

- Information and communication
- How to carry out first fix flooring and roofing
- How to carry out first fix frames
- Partitions and stairs
- Setting up and operating a circular saw.

Successfully completing this course can see you employed as a trained carpenter. Candidates interested in management can progress to level 3 and 4.

Level 2 Diploma in Electrical Installation

These courses are open to all Camden and Islington residents aged 16+ with no upper age limit. Courses are both full and part-time depending on your age.

Electronic engineers focus on all electronic devices in the workplace and at home. On this course you can gain the skills required to work in both.

The training includes:

- Health and safety in building services engineering
- Principles of electrical science

- Electrical installations technology
- Installation of wiring systems and enclosures
- Understanding how to communicate within building services engineering.

The course includes practical sessions in fully equipped workshops. Theory sessions take place in the classroom.

Successfully completing this course can start your career as a basic level electrician's mate. Going on to take an NVQ level 3 will see you fully qualified as an electrician.

Level 2 Diploma in Plumbing

These courses are open to all Camden and Islington residents aged 16+ with no upper age limit. Courses are both full and part-time depending on your age.

The training includes:

- Scientific principles for domestic, industrial and commercial plumbing
- Common plumbing processes
- Cold water systems
- Domestic hot water systems
- Understanding and carrying out site preparation and pipework fabrication techniques for domestic plumbing and heating systems
- Understanding and applying domestic cold water system installation and maintenance

techniques

- Understanding how to communicate with others within building services engineering.

During practical sessions you will be taught in fully equipped workshops. Theory sessions will be delivered in the classroom.

Candidates who successfully complete this course can expect to start a career as a qualified basic plumber. To advance further, an NVQ level 3 will be needed.

In addition to the level 2 diplomas, KXCSC will be delivering apprenticeships in painting and decorating, and groundworks.
