

# Employer Feedback

## SĚAH WIND/NORDIC

### How Can We Help?

In February 2024, The Hub welcomed SeAH Wind and Nordic to promote the employment and training opportunities available at the new SĚAH Wind mega-site at Teesworks. The teams delivered a presentation to interested candidates and discussed the wide range of roles on offer at SĚAH including Grinder, Crane Operator, Plater, Welder and more!

As part of SĚAH Winds offer, they are working in partnership with Nordic Engineering Training & Testing, to create Nordic SĚAH Wind Training Academy. During the 24-week programme the learners will gain the knowledge and skills required to successfully pass welder approval testing and gain employment on the site.

Nordic SĚAH Wind Training Academy advertised for positions for their upcoming academy and received upwards of 700+ applicants. Wow!

### The Next Steps...

Nordic Engineering Training & Testing is a local Stockton-on-Tees business who have over 120 years experience in engineering, training, testing and coding. The centre has 36 top specification welding bays that were designed and built by welders, for welders and are kitted out for MMA, TIG and MIG welding. This amazing facility, paired with the high quality learning environment the Hub offers, made the perfect pairing for the recruitment aspect of the programmes development.

Our Hub team offered support to Nordic with during 3 assessment days. Providing a dynamic space for digital presentations, IT equipment for engineering assessments and interview rooms for 1-2-1 discussions.

Nordic invited 200 shortlisted candidates to attend the assessment days here at the Hub, out of this cohort 24 candidates were chosen and have gone into work at SĚAH Wind.

### The Feedback...

#### Mark Roddy, Nordic Managing Director:

"We were delighted with the support provided by the Hub, who helped us deliver a presentation, online assessment and interviews for over 200 candidates for the Nordic SĚAH Wind Training Academy".

#### Candidate Comments:

"I was lucky enough to secure a place on the SĚAH Wind trainee welder program. The training is going well so far and I'm really enjoying it. Thank you for your kind offer of help, it's much appreciated".

"Yes I was successful and am currently doing the 24 week training academy for SĚAH wind. Thankyou for everything!".

I am now employed by SĚAH Wind, thank you!".
